OPEN SOURCE CONTRIBUTION

Spree Edge

<https://github.com/spree-edge>

Contribution:Contributed to Spree Edge, the organization managing Spree extensions, by updating and maintaining key gems to ensure compatibility with Spree Commerce versions 4.6, 4.7, and 4.8. Enhanced the platform's functionality by aligning extensions with the latest Spree features, improving performance, and ensuring seamless integration for e-commerce applications.

Impact: Updated multiple gems to ensure compatibility with the latest Spree versions (4.6, 4.7, 4.8), enabling the community to seamlessly integrate these gems with their Spree applications.

Spree Stock Notify

Contribution: Developed a Spree Stock Notify extension, allowing users to register for notifications on specific products that are out of stock and receive alerts when those products are restocked.

Impact: This feature significantly improved customer satisfaction and engagement by keeping users informed about product availability, reducing the likelihood of lost sales, and driving repeat visits to the platform, ultimately contributing to increased revenue and customer retention.

Spree Sitemap

Contribution: Enhanced compatibility of Spree Sitemap Gem with Spree 4.8 version, ensuring seamless integration and functionality for users upgrading to the latest Spree release.

Impact: Developed a Spree Sitemap extension to improve search engine indexing and boost SEO performance, increasing organic traffic and enhancing product discoverability.
